

# LinkUp

## AGILE INCEPTION DECK

Team 2

Benjamin Ho, John Lee, Nigel Tan, Poh Jia Qi, Ryan Bangras

# POTENTIAL SPONSOR(S)

Ngee Ann Polytechnic

# WHY ARE WE HERE?

To get NP students who need help in touch with fellow student volunteers who are willing to offer their time

To promote self motivated learning, even outside of curriculum time

To reward altruistic volunteers who help their peers by providing incentives and rewards

# THE ELEVATOR PITCH

For students

Who want to get in touch and get help from student volunteers,

The LinkUp website

Is a matchmaking service

That connects NP students with each other for the purposes of tutoring.

Unlike other meetup apps and websites,

Our project aims to focus specifically on the sharing of knowledge between students in Ngee Ann.

# PRODUCT BOX

Xtra help. Xtra easy.

Engender an environment where students can actively help each other!  
CCA PEARLS to volunteers who help out!  
Encourage sharing of information!

# THE NOT LIST

IN	OUT

Weekend Sessions

# MEET THE NEIGHBOURS

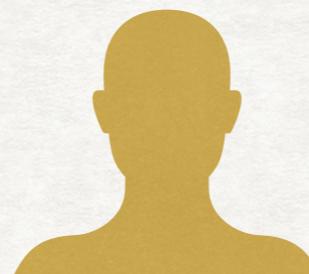

Frontend  
Developer

UI/UX  
Designer

Backend  
Developer

Fullstack  
Developer

Database  
Manager

## Core Team

# MEET THE NEIGHBOURS

Frontend Developer - builds the part of the website users will see

UI/UX Designer - designs the interface and interactions of the website

Backend Developer - in charge of the things that go on behind the scenes that users won't see

Fullstack Developer - does a bit of both frontend and backend development

Database Manager - in charge of the database and any data related tasks and information

# TECHNICAL SOLUTIONS

Visual Studio

HTML5, CSS3, Bootstrap, JavaScript, ASP.NET Core,  
C#, MSSQL

BitBucket (Git) for Version Control

# WHAT KEEPS US UP AT NIGHT

Learner wants to learn something but there are no students volunteers to teach

Student volunteer would love to teach but there are no students who want to learn

Not having the expertise and skills to develop the service we have in mind

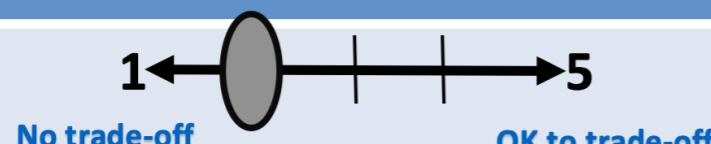

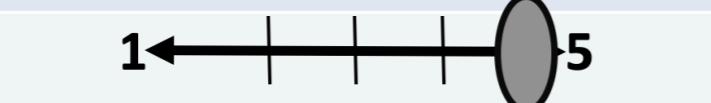

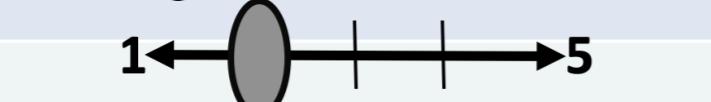

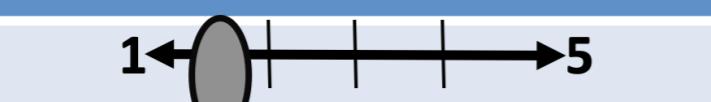

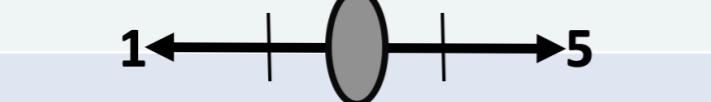

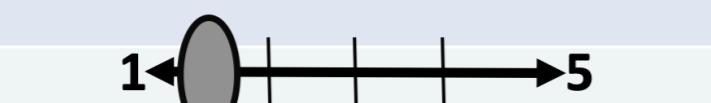

Not sure if we can finish the fully featured web app in time for release date

# WHAT'S IT GOING TO TAKE

5 members, ~4 months, \$500k

# WHAT'S GOING TO GIVE

The classic four	
	Feature completeness (scope)
	Stay within budget (budget)
	Deliver project on time (time)
	High quality, low defects (quality)
Other important things	
	Ease of use
	Simplicity
	Detailed audits (log everything)
	Value of service provided to the user
